Service Description

UPS[®] ECONOMY

UPS[®] Economy is a low-cost, deferred international small package service designed for low-weight, low-value, Business to Consumer cross-border shipments.

UPS[®] Economy is a contract-only service, utilizing a vendor network, which offers two delivery options for international shipments:

DDP (Delivered Duties Paid):

- Duties and taxes are paid by the shipper on their UPS invoice
- Package target weight 10 lbs. or under

DDU (Delivered Duties Unpaid):

- Duties and taxes are collected at the time of delivery from the consignee
- Package target weight 4.4 lbs. (2 kg) or under

UPS[®] Economy service involves the manifesting of international shipments to many export countries. These shipments are then consolidated at the shipper location into Master Cartons for consolidated movement to an Export Site. Master Cartons are opened and emptied at the Export Site with contents being sorted and consolidated by destination country for export.

UPS[®] Economy can be thought of as a movement in two parts.

First Mile: Movement from the merchant shipper to the Export Site

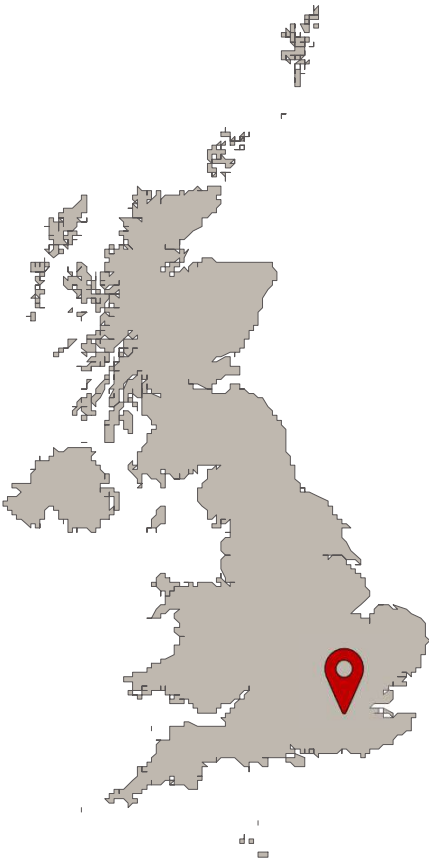

- The merchant shipper consolidates their UPS Economy packages to a Master Carton
- The Master Carton is shipped using a domestic UPS service (or for high volume shippers, a freight service) to the Export Site where the UPS[®] Economy packages are deconsolidated and prepared for export to the destination country
- The cost of shipping for the First Mile movement to the Export Site is not included in the UPS[®] Economy rates.

Last Mile: Movement from the Export Site to the recipient

- UPS[®] Economy shipments will be tendered to a network of trusted partners
 - DDP shipments are tendered to trusted delivery providers within the country of destination for delivery to the consignee address
 - DDU shipments are tendered to local postal authorities for delivery to the consignee address
