

Missing Parcel Level Detail Fee

To ensure the efficient performance of all UPS services, we will **effective 20th October 2024**, be introducing a new **Missing Parcel Level Detail (PLD) fee**.

- The fee will be charged at \$4.40 per parcel for both domestic and international services (check the table below for local currency).
- The fee will be charged on those parcels, where a shipper does not provide a timely upload of all applicable PLD information to UPS, before driver pickup.
- To avoid this charge, it is essential that you transmit all applicable information (including, but not limited to, recipient's full name, complete delivery address, shipment weight and dimensions) to UPS, before the parcels are picked up by our drivers.
