- Shipments to or from countries outside the EU require both a return label and a commercial invoice in order for the shipment to pass smoothly through customs. Regulations and requirements for documentation for individual commodities vary from country to country. It is essential to review commodity-specific documentation stipulations for both the country of origin and the country of destination. Depending on the commodity and its use, special licensing and notations for accompanying documentation may be required.
- If the international shipment is returned to a different country than where the requesting party resides, a customer contract will be required.
- UPS 1 Attempt and UPS 3 Attempts Returns Plus are available for collection in the EU plus the following countries/territories: Canada, Liechtenstein, Mexico, Norway, Puerto Rico, Russia, Switzerland, United States.
- UPS Prints and Posts Return Label is available for retrieving goods within the EU plus the following countries or territories: Australia, Brazil, Canada, China, Hong Kong, India, Japan, Liechtenstein, Malaysia, Mexico, Norway, Philippines, Puerto Rico, Russia, Singapore, South Korea, Switzerland, Thailand, United States.

- Transportation charges for return packages are billed after entering the UPS system. UPS Prints and Posts Return Label, UPS 1 Attempt Returns Plus and UPS 3 Attempts Returns Plus, UPS Returns Exchange and UPS Returns Pack and Collect accessorial fees are billed at the time of request. UPS Print Return Label, UPS Electronic Return Label and Import Control fees are billed after the corresponding package enters the UPS system.
- All UPS Returns are subject to UPS's Terms and Conditions of Carriage.
- When an on-call collection is requested in Belgium, France, Germany, Italy, the Netherlands, Poland, Spain, or the United Kingdom, for a return with UPS Print Return Label, UPS Electronic Return Label or UPS Prints and Posts Return Label, fees may apply. On-call collection fees are billed to the requestor at the time of request or can be paid in cash upon collection of the return.

UPS Broker of Choice®

This service enables importers to select their own customs broker for customs clearance of their UPS international shipments.

This service is available with the full portfolio of UPS shipping services and ensures that the established relationship with a Customs Broker remains in place while the importer works with UPS to save time and increase efficiencies in shipping and customs processes. Using UPS Broker of Choice provides full tracking visibility and enables importers to reduce fees and errors incurred while using multiple customs clearance processes.

Importers have two options:

UPS Broker of Choice OnSite is for shipments that remain in UPS possession while the importer's customs broker completes customs clearance procedures prior to UPS completing delivery of the shipment.

UPS Broker of Choice OffSite is for shipments moved "in-bond" directly to a customs controlled (bonded) warehouse (at the importer's direction) where the importer's customs broker completes the customs clearance procedures. The UPS transport is complete upon delivery of the shipment to the warehouse.

UPS Broker of Choice also gives your broker advance access to shipping documentation at the UPS Import Clearance Alert website (import.ups.com).

For the latest details and fees related to UPS Broker of Choice, please visit www.ups.com or contact your local UPS sales representative.

UPS FTZ Facilitator®

This service gives importers and exporters the ability to use UPS to transport international shipments "in-bond" to and from a global Free/Foreign Trade Zone (FTZ).

This allows the shipment of goods to and from an FTZ without using other transportation providers. Having a single source transportation provider enables importers and exporters to increase visibility and tracking, and reduce the chance for errors and costs associated with utilising multiple transportation providers.

The process is really very simple. Importers will choose UPS FTZ Facilitator to direct shipments to be delivered, in-bond, to a designated FTZ rather than being cleared through customs. On the other side, exporters will choose UPS FTZ Facilitator to ship goods in-bond from an FTZ to an international destination. So whether you are importing or exporting this service can help you go global with confidence.

UPS FTZ Facilitator also gives you advance access to shipping documentation at the UPS Import Clearance Alert website for your broker and FTZ operator (www.ups.com/import).

- Unset precious stones and industrial diamonds
- Jewelry and watches (other than costume jewelry and costume watches) exceeding USD 500 or local currency equivalent per package¹

Personal effects in general include items owned by the shipper, intended for his or her personal use and owned for at least 6 months. The exact definition of personal effects (which is based in applicable customs rules) varies from country to country. Please consult the UPS call centre on 03457 877 877 for more information.

Unaccompanied baggage means suitcases, carry bags, backpacks, briefcases and other similar luggage items, regardless of content (except that they may be shipped if empty, unlocked and properly packaged in accordance with UPS guidelines).

Also prohibited are: goods moving under ATA Carnet; goods moving under FCR, FCT and CAD (Cash Against Document); shipments with inherent vice, which by their nature are likely to soil, impair or damage persons, merchandise or equipment; goods, the carriage of which is prohibited by law in the country of origin, transit or destination (e.g. ivory and ivory products), goods which attract excise duty (e.g. spirits) or which require special facilities, safety precautions or permits. Shipping prohibited articles on a contractual basis with UPS

Certain items we list as prohibited may be accepted by UPS on a contractual basis for shippers with regular volume and the ability to comply with all applicable regulations.

UPS has put in place the International Special Commodities (ISC) program enabling customers to ship restricted items (e.g. items that require additional paperwork or inspections, or that are subject to spoilage) to specific destinations.

The following commodities may fall under the ISC program:

- Alcoholic Beverages
- Biological Substances, Category B, Exempt Animal Specimens and Exempt Human Specimens

¹ Costume jewellery and costume watches: jewellery and watches for which the retail price is lower than USD 150 per item and which do not contain precious metal(s) and/or stone(s)

Prohibited articles and service restrictions

Alcoholic beverages

UPS offers an alcohol shipping programme, which allows customers to ship alcoholic beverages containing less than 70% alcohol in and between certain countries. A contract is necessary for shippers in the alcohol industry. Customers not in the alcohol industry can ship gifts within the EU without a contract.

If you ship outside the EU and into the EU, all shipments of alcohol must follow the import regulations of a destination country or the EU import regulations. You can contact your sales representative or refer to the UPS Alcohol Shipping Guide for more information about availability of specific destinations and documentation needed. Within the EU, alcoholic beverages may be shipped either excise duty paid or under duty suspension. They must, however, have an alcohol content of less than 70% and must be in containers with a capacity of 5 litres or less. Products such as alcohol are subject to excise duty regimes in all EU member states. As such, specific documentation or fiscal marks are required to accompany all international and some domestic shipments. Please note that UPS does not automatically obtain the consignee's signature on the excise duty documents, nor does UPS automatically return these documents to the shipper. Detailed information on the excise duty regime is published by the European Commission and can be found online.

Packages containing alcoholic beverages should be clearly indicated as "alcoholic beverages" on the shipping label, waybill or other shipping documentation. Alcoholic beverages should not be included in a shipment containing non-alcoholic products. Furthermore, packages containing alcoholic beverages must be physically separated from others when prepared for collection by UPS. You can also contact your sales representative to inquire about packaging guidelines and obtain a list of UPS Approved solutions for alcohol.

UPS only agrees to deliver alcoholic beverages to an adult. Therefore, if you are shipping alcohol to a residential address, you must select the "Adult Signature Required" option (please see [Section 2](#) of this Guide).

General obligations

It is the shipper's responsibility to comply with current government regulations or laws applicable in each country. Shipments are subject to inspection and possible delay by customs or representatives of other government authorities.

We reserve the right to refuse or suspend transportation of any package which does not set out contact details for shipper and receiver and of goods which, in our opinion, are not practicable for transportation or are not adequately described, classified or packed and labelled in a manner suitable for transportation and accompanied by necessary documentation.

We will not transport any goods which are prohibited by law or regulation of any federal state or local government in the origin or destination countries or which may breach any applicable export, import or other laws or endanger the safety of our employees, agents and subcontractors or the means of transportation or, which in our opinion, soil, taint or otherwise damage other goods or equipment or which are economically or operationally impractical to transport.

UPS does not agree to carry any prohibited articles. Without prejudice to any other provision in these terms or the UPS Terms and Conditions of Carriage, if it comes to the attention of UPS that a package contains any prohibited article, you must pay to UPS an additional minimum administration fee of 237 GBP in addition to any other applicable charges. Payment by you of such fee does not in any way limit or exclude your liability to UPS resulting from the breach of the UPS Terms and Conditions of Carriage nor does it mean that UPS accepts any liability, or waives any rights, in respect of such prohibited articles.

Dangerous Goods

UPS adheres to the air transportation regulations outlined by the International Air Transport Association (IATA) and to the road transportation regulations outlined by the UN ADR and does not accept Dangerous Goods in its system – nationally or internationally. Local national regulations also apply for road transport.

Businesses which ship Dangerous Goods without appropriate labelling, documentation and packaging can face significant financial and legal penalties.

It is also important to remember the following when shipping with UPS:

- 1 If you are reusing packaging or cartons, please ensure that all old labelling is removed. Any Dangerous Goods labels on a package will cause the shipment to be held and inspected, causing service delays and inconvenience to you and your customer.
- 2 If you are shipping goods that could be potentially seen as Dangerous Goods but are not – because of their unusual name, appearance etc, it is advantageous to clearly declare on the shipping documentation that the goods are 'not classified as Dangerous Goods'. This will ensure the shipment is not delayed unnecessarily. Any misdeclaration may lead to significant penalties for the shipper.

Service restrictions

UPS does not deliver to or collect from P.O. Box numbers.

If no high value shipment summary is obtained and signed, the maximum value or declared value of each such shipment is limited to USD 999.

Contact your UPS Customer Service Centre on 03457 877 877 for the local currency equivalent.

Weight and size limits

UPS has established specific weight and size limits for the packages that you send with all UPS services. The restrictions below only pertain to individual packages. There are no limits to the total weight of your shipment or the total number of packages in your shipment.

The maximum weight (actual weight) per package is 70kg².

The maximum length per package is 274cm.

The maximum size per package is 400cm in length and girth combined.

Packages that weigh more than 25kg require a special heavy-package label.

Packages with a large size-to-weight ratio may have a dimensional weight greater than actual weight. In that case, UPS will charge based on dimensional weight.

Packages that require additional handling may be subject to the Additional Handling Charge.

Packages that exceed certain size restrictions but do not exceed UPS's maximum size per package may be subject to the Large Package Surcharge.

Packages that exceed UPS weight and size limits are not accepted for transportation. If found in the UPS small package system, they are subject to the Over Maximum Limits charge.

Length is the longest side of a package or object.

Girth is defined as (2 x Width) + (2 x Height).

¹ Costume jewellery and costume watches: jewellery and watches for which the retail price is lower than USD 150 per item and which do not contain precious metal(s) and/or stone(s)

² The limits listed above apply to most packages and destinations, but there are some variances because of different local restrictions in some countries. Please contact your UPS Customer Service Centre on 03457 877 877 for details.

UPS Money-Back Guarantee

Money-back guarantee

For certain services and selected destinations UPS offers a free money-back guarantee on the shipping charges. To find out if it applies to your shipment, use the ['Calculate Time and Cost'](#) tool at www.ups.com and key in your shipping details. Alternatively, contact your local UPS Customer Service Centre on 03457 877 877. Where the money-back guarantee operates, if we fail to attempt delivery within the applicable time period, we will, on request, refund or credit you (or any other person who paid for the carriage) with the shipping charges (or, in the case that only some of the packages in a multiple package shipment fail to meet the applicable time limit, the proportionate part of the shipping charges relating to those packages), net of any surcharges, VAT, duties, taxes or levies, provided that the following conditions are fulfilled:

- a) Shipping documentation (including labels) must have been correctly completed and the relevant package must bear the paper labels produced by UPS online shipping solutions or otherwise in accordance with the UPS packaging guidelines.
- b) Any other documentation required by the country of origin or destination or any country of transit must be fully and accurately completed and included with the package.
- c) If applicable, the package must bear a Saturday Delivery routing label (for destinations to which this service is available).
- d) The shipment must have been tendered to UPS on or before the latest collection time specified by UPS for guaranteed delivery.
- e) You must have notified your request for claim to UPS in writing or by telephone within 15 calendar days from the date of scheduled delivery and advised us of the receiver's name and address, date of shipment, package weight and the UPS tracking number.
- f) The shipment must not require additional handling, be subject to the Oversize Pallet Charge or include a Large Package, as described in the [Additional Services and Charges](#) section in this guide.
- g) The shipper must provide Timely Upload of all applicable information to UPS. Timely Upload as used in these Terms refers to the electronic transmission of all applicable information (including, but not limited to, consignee's full name, complete delivery address, and shipment dimensions and weight) to UPS 15 minutes before the latest collection time specified by us for guaranteed delivery.

The guarantee does not apply when late delivery results from the package not complying with the restrictions and conditions set out in Paragraph 3.1 of our Terms and Conditions of Carriage, from events beyond our control (as set out in Paragraph 6 of our Terms and Conditions of Carriage) or due to any suspension of carriage or return of a package as provided for in Paragraph 3.3 of our Terms and Conditions of Carriage or the exercise of any lien by UPS in accordance with our Terms and Conditions of Carriage.

For the avoidance of doubt, the liability of UPS under the money back guarantee is limited to the above and the guarantee does not otherwise constitute any form of undertaking or representation that the shipment will arrive by any particular time.

Liability

Liability for loss, damage or delay

The following is a summary for information purposes of certain relevant provisions of the UPS Terms and Conditions of carriage. The full terms are set out in the Terms and Conditions of Carriage and prevail in case of inconsistency with the present summary.

International Carriage:

Where carriage is international, international conventions may apply: in particular the Warsaw or Montreal Convention in the case of carriage by air and the CMR Convention in the case of carriage by road. The national laws of some countries may also extend the rules of such conventions to purely domestic carriage.

Where they apply, the rules of the Warsaw, Montreal and CMR Conventions govern and in most cases will limit our liability for loss, damage or delay to a shipment.

- The Warsaw and Montreal Convention limit is usually 19 Special Drawing Rights¹ (SDR's) per kilogram of the goods affected.
- The CMR Convention limit is 8.33 SDR's per kilogram (but restricted to the amount of the carriage charges in the case of delay).

Other Carriage:

Where Convention rules do not apply, we will only pay compensation for loss, damage or delay of a package caused by our negligence and only up to a maximum of:

- GBP 60.00 per shipment; or,
- if greater, 8.33 SDRs per kilo of the goods affected, subject (as in all cases) to proof of loss.

You may obtain the benefit of a greater limit of liability by declaring a higher value for carriage on the UPS shipping documentation and paying a corresponding additional charge. If you declare a higher value for carriage and pay the applicable charge, then UPS's liability shall be limited to proven damages not exceeding the sum so declared (see under '[Optional services](#)').

The value of the goods concerned shall not in any event exceed USD 50,000 (USD 2000 in the case of jewellery or watches other than costume jewellery or costume watches) or its local currency equivalent per package in a small package shipment, or USD 100,000 or its local currency equivalent per pallet in a Worldwide Express Freight shipment, as UPS does not offer carriage for goods with values above these amounts.

Except when Convention rules or other mandatory laws apply and require otherwise, we will not pay compensation for purely economic losses (such as loss of profits, loss of business opportunities or loss of revenue resulting from loss of use), even if a value has been declared for carriage in respect of the relevant shipment. We will also not be liable for any damage to or loss of packaging or pallet skids.

Any claim against UPS must be notified to us in writing as soon as possible and also within any specific time limit set out in our terms and conditions. In certain circumstances, Convention rules (if applicable) may permit a claim to be pursued against UPS outside these periods.

In addition to the above, any legal proceedings in respect of a shipment must be commenced and served on us within eight months of delivery or (in the case of non-delivery) of the due date for delivery. If the Warsaw, Montreal or CMR Conventions apply, there are longer time limits for the commencement of legal proceedings: in summary, 2 years in the case of the Warsaw and Montreal Conventions and 1 year (3 years if there is wilful misconduct on UPS's part) in the case of the CMR Convention.

¹ A Special Drawing Right is a unit of account adopted by the International Monetary Fund. The current value of an SDR is regularly published in major financial newspapers.
