## 2. DETERMINING THE RATE - SENDING SHIPMENTS

UPS shipping rates are determined by a shipment's service level, zone number, weight, content and specific additional charges.

**How to calculate your shipment rate:**

- 1 Make sure that you are in the correct section. The sending rates in this section apply to any outbound domestic and international shipments when the shipping charges are billed to a party in the **sending country**.
- 2 Determine the billable weight.
- 3 Find the chart for the service level of your choice.
- 4 Find your shipment type in the chart (UPS Express Envelopes, documents or packages).
- 5 Look up the rate that applies to the billable weight and zone for your shipment.
- 6 Note any additional costs, including charges for optional services.

**Important**

For inbound shipments, please ensure that the shipper records your UPS account number on the UPS shipping documents.

**Changes to rates and additional charges**

In order to respond to evolving costs and taxes and to ensure a competitive service, UPS reserves the right to amend or introduce rates and charges. A minimum of 10 days notice will be provided.

# How to use this section

Rates in this section apply when the shipping charges are billed to a party in the **sending country**.

## Zone

To determine the zone number, see [Worldwide zones](#).

## Billable weight – for small package shipments

Billable weight is the weight used to calculate the rate. For domestic and international services, the billable weight will be the greater of the dimensional weight as compared to the actual weight.

## How To Calculate Billable Weight

Determine Actual Weight: Use any standard scale to determine the actual weight of your package. Increase any fraction to the next half kilogram.

Determine Dimensional Weight: Divide the cubic size of your package (length x width x height, rounding each measurement to the nearest whole centimetre) in centimetres by 5,000. Refer to the figure at the bottom of this page. Increase any fraction to the next half kilogram.

Determine Billable Weight: Compare the package's actual weight to its dimensional weight. The larger of the two weights is the billable weight and should be used to calculate the rate.

For multiple-package shipments, total the billable weight of all packages in the shipment.

## Additional charges

These rates are exclusive of any additional charges, such as charges for extended or remote area delivery or any optional services. Please see [Additional Services & Charges](#) for more details.

UPS Express Plus shipments exceeding a certain value, as designated by European Commission regulations, will be delivered by 12.00 noon the second business day to the following European Union (EU) countries: Czech Republic, Estonia, Greece, Hungary, Lithuania, Poland, Slovak Republic and Slovenia.

For more information, contact your local UPS office.

## How to determine dimensional weight - for small package shipments

$$\frac{L \times W \times H}{5000} = \text{Dimensional weight}$$

L = length in cm  
W = width in cm  
H = height in cm

## 3. DETERMINING THE RATE – RECEIVING SHIPMENTS

The rate for receiving a UPS shipment is determined by its service level, origin zone, weight and any additional charges.

Our rates in your local currency are fixed in advance to avoid the effects of currency fluctuations and allow you to manage your import shipping costs.

### **How to calculate your shipment rate:**

- 1 Make sure that you are in the correct section. The receiving rates in this section apply to any inbound domestic and international shipments when the shipping charges are billed to a party in the **receiving country**.
- 2 Determine the billable weight.
- 3 Find the chart for the service level of your choice.
- 4 Find your shipment type in the chart (UPS Express Envelopes, documents or packages).
- 5 Look up the rate that applies to the billable weight and zone for your shipment.
- 6 Note any additional costs, including charges for optional services.

### **Important**

For inbound shipments, please ensure that the shipper records your UPS account number on the UPS shipping documents.

### **Changes to rates and additional charges**

In order to respond to evolving costs and taxes and to ensure a competitive service, UPS reserves the right to amend or introduce rates and charges. A minimum of 10 days notice will be provided.

# How to use this section

Rates in this section apply when the shipping charges are billed to a party in the **receiving country**.

## Zone

To determine the zone number, see [Worldwide zones](#).

## Billable weight – for small package shipments

Billable weight is the weight used to calculate the rate. For domestic and international services, the billable weight will be the greater of the dimensional weight as compared to the actual weight.

### How To Calculate Billable Weight

Determine Actual Weight: Use any standard scale to determine the actual weight of your package. Increase any fraction to the next half kilogram.

Determine Dimensional Weight: Divide the cubic size of your package (length x width x height, rounding each measurement to the nearest whole centimetre) in centimetres by 5,000. Increase any fraction to the next half kilogram.

Determine Billable Weight: Compare the package's actual weight to its dimensional weight. The larger of the two weights is the billable weight and should be used to calculate the rate.

For multiple-package shipments, total the billable weight of all packages in the shipment.

## Additional charges

These rates are exclusive of any additional charges, such as charges for extended or remote area delivery or any optional services. Please see [Additional Services & Charges](#) for more details.

UPS Express shipments exceeding a certain value, as designated by European Commission regulations, will be delivered by 12.00 noon the second business day to the following European Union (EU) countries:  
Czech Republic, Estonia, Greece, Hungary, Lithuania, Poland, Slovak Republic and Slovenia.

For more information, contact your local UPS office.

## Tax

These rates are exclusive of tax. Where applicable, VAT will be charged at the standard rate.

## UPS Express Envelope

For correspondence, documents and electronic media only.

## Letter weight limit

Letter rates apply for domestic and international documents, correspondence and electronic media shipments that do not exceed 0.5 kg sent in a UPS Express® Envelope. Domestic, import and export letters above 0.5kg and less than or equal to 5kg will be billed the document rate. Domestic, import and export letters above 5kg will be billed the package rate.

## Maximum weight

The maximum weight for an individual package is 70kg.

To determine the rate for a shipment with multiple packages weighing in total more than 70kg or multiply the total weight (rounded up to the next whole kilogram) by the appropriate price per kilogram shown.

The amount billed will be the result of the calculation, or the minimum rate shown – whichever is the greater.
