The UPS Rate and Service Guide and the UPS Terms and Conditions of Carriage (each available at [ups.com](https://www.ups.com)), the UPS Worldwide Economy Service Description and these UPS Worldwide Economy Service Terms are subject to change without prior notice. In the case of a conflict between these UPS Worldwide Economy Service Terms and any other terms in the UPS Rate and Service Guide, the UPS Terms and Conditions of Carriage, or the Agreement, these UPS Worldwide Economy Service Terms shall prevail. The UPS Rate and Service Guide, the UPS Terms and Conditions of Carriage, and the Agreement are expressly incorporated herein by this reference.

### 2. Geographic Scope.

UPS Worldwide Economy Service is provided to and from the origins and destinations as set forth above in the UPS Worldwide Economy Service Description, in effect at the time of shipping. UPS reserves the right to add or eliminate permitted origins and destinations without prior notice.

### 3. Customs Clearance Services.

For the DDP Option, Customer agrees to the following customs clearance service terms set forth in these UPS® Worldwide Economy Terms and Conditions:

- Customer authorizes and grants a power of attorney to a licensed transportation partner chosen by UPS to act as your customs broker for any shipment. The licensed transportation partner will transact business with foreign revenue authorities to clear your shipment and account for duties and taxes on your behalf.
  - For shipments into the European Union, you consent to and appoint the licensed transportation partner to act in the capacity of a “Direct Representative.” In accordance with Article 5 of Council Regulation (EEC) no. 2913/82 and the customs code, a “Direct Representative” acts in the name of and on behalf of another person.
- UPS and its licensed transportation partner will not be liable for any penalties imposed or loss or damage incurred due to the impoundment of the Customer’s documents or goods by customs or similar authorities. Customer hereby agrees to indemnify, defend, and hold harmless UPS, its officers, directors, employees, agents and their successor and assigns and its licensed transportation partner and their officers, directors, employees, agents and their successors and assigns from any and all claims, demands, expenses or liabilities including but not limited to, fines, penalties, liquidated damages, storage charges, duties, fees, taxes, late payment fees or other money due, arising from the transportation, importation, exportation or customs clearance of shipments on behalf of the shipper or arising from the shipper’s noncompliance with the laws of the origin and destination countries or UPS’s requirements applicable to the shipment.

- DDP Packages will be delivered on a Fully Landed Cost basis. “Fully Landed Costs” include transportation to any destination country available for the DDP Option and any duties, clearance fees, taxes, and all other fees needed to effect delivery. If Customer uses UPS’s Landed Cost Calculator API or e-commerce platform plugin, costs for the disbursement of duties, clearance fees, taxes, and any other fees for delivery are estimated upon tender and the estimated amount of such costs shall be charged to Customer. All such charges are final, regardless of the actual amount of disbursements made upon import. An additional administrative fee equal to ten percent (10%) of the total of duties and taxes charged applies to each such DDP Package. UPS reserves the right to charge additional duties and taxes to Customer if (i) the Harmonized Tariff Schedule (“HTS”) code Customer provides to UPS is deemed incorrect by the licensed transportation partner chosen by UPS to act as Customer’s customs broker; and (ii) the correct HTS code, as determined by such customs broker in its sole and unlimited discretion, requires higher duties and taxes than the HTS code provided to UPS by Customer.
- If Customer does not provide an HTS code at the time of shipping, UPS reserves the right to determine the HTS code for the package based on the information provided by Customer, including but not limited to item description and country code. UPS takes no responsibility for any inaccurate HTS code. If the information provided by Customer is not sufficient or UPS is unable to determine the HTS code for a package, UPS reserves the right to return such package to Customer at Customer’s expense.
- For DDP Packages exported from the United States, Customer shall act as the U.S. Principal Party in Interest (“USPPI”) and be responsible for compliance with all Automated Export System (“AES”) and Electronic Export Information (“EEI”) filings requirements. Customer authorizes UPS to file EEI on Customer’s behalf, based on information from Customer. Customer shall be responsible for compliance with applicable export control and international trade laws and conventions and licensing requirements, which includes, but is not limited to ensuring that all products requiring Export Control Classification Numbers (“ECCN”) are assigned to DDP Packages and that each ECCN is verified against the Export Administration Regulations (“EAR”). Customer may be required to provide additional powers of attorney or written authorizations as USPPI to facilitate EEI filing requirements.
- For DDP Packages exported to the United States, Customer shall be responsible to ensure that the consignee or the party receiving the shipment is not a Restricted Entity. A “Restricted Entity” is any company, country, or individual on any list or program maintained by any governmental agency of the United States restricting the export of any items to or financial transactions with specific individuals, companies, or other entities, which, includes, but is not limited to, the Office of Foreign Assets Control (“OFAC”) list of Specially Designated Nationals and Blocked Persons and the Denied Persons List or the Entity List maintained by the Bureau of Industry and Security of the U.S. Department of Commerce. Customer shall not tender for UPS Worldwide Economy Service any shipment to a party that is a Restricted Entity.

For the DDU Option, when a DDU Package requires customs clearance, it is the Customer’s obligation to provide, or to ensure that the consignee will provide, UPS with complete and accurate documentation for the purpose but UPS will, unless instructed otherwise, act on behalf, at the expense and at the risk of the Customer in obtaining customs clearance. The Customer also agrees that UPS may be considered as being the receiver of the Package for the sole purpose of appointing a customs broker to carry out any customs clearance insofar as is allowed by law. Customer authorizes UPS to instruct third parties to perform customs clearance of the DDU Packages as may be necessary. If UPS is required to pay any taxes, duties or levies on behalf of the Customer, consignee or a third party, or if any taxes, duties, penalties, charges or expenses are imposed, rightly or wrongly by government authorities, or incurred by UPS due to any circumstances, including any failure by the Customer or the consignee to provide correct information and documentation or any permits or licenses required in connection with carriage, the Customer shall be liable to UPS and indemnify them on first written demand for all such amounts unless they are collected by UPS from the consignee immediately upon delivery. For DDU Packages destined to the United States, if multiple Packages are sent to a single consignee, the combined commercial value of those Packages must not exceed \$800 USD in a single day.

## 15. Name Usage Guidelines.

Customer shall comply with the UPS Worldwide Economy Name Usage Guidelines contained herein when referring to UPS Worldwide Economy service in print or online retail communications. The well-respected UPS® brand has many important touch points, including trademark names. UPS (“we” or “our”) has developed service names to help customers recognize the solutions they need, and we ask that the names be referenced properly in order to help us protect these valuable assets. If you will be using UPS Worldwide Economy, please ensure you are using the name properly. The following Name Usage Guidelines apply:

- Many of our registered names include the prefix “UPS”. This prefix is part of the registered name and should always be included.
- Include the correct notice symbol, “®”, in the first or most prominent mention of the name.
- Never reference our service names using abbreviations.
- Names should never be displayed in any format other than as text.

We encourage Customers who wish to reference UPS shipping services in print and within online retail information to use our correct, trademark names, rather than generic names, as this will help demonstrate to your customers that you have engaged a best-in-class provider for your product delivery.

Customers who choose to substitute generic expressions for our trademark names may do so. However, do not make up names (e.g., Value Saver Plus) or use an expression that includes the UPS brand name (e.g., UPS Value). Under no circumstances can an expression be used that includes the words “Standard”, “Saver”, or “Ground”, which are used for other UPS services and set an expectation of a specific customer experience.

The trademark name, “UPS® Worldwide Economy”, is the preferred and recommended choice. Display UPS trademarks exactly as shown in these guidelines. A trademark registration provides legal protection for UPS because it prevents other companies from using the marks and potentially misleading or confusing the public.

An acceptable generic expression is “International Economy Shipping Option”. This example is acceptable, as it describes what the service is and does not conflict with our branded product names or create confusion. It provides online shoppers with information that will help them compare shipping options.
