How to Process Your Shipments (continued)

UPS offers a wide variety of door-to-door services with guaranteed delivery time and customs clearance. To determine the service, weight, zone, rate and additional charges, follow these steps.

2. Determine the Weight

Determine the Actual Weight

The package weight rounded up to the next whole pound.

Determine the Dimensional Weight (see image below)

Multiply the length by the width by the height (each rounded to the nearest whole inch) of each package to determine its cubic size.

Divide the cubic size of the package by 139 to determine Dimensional Weight in pounds. Increase fractions of a weight to the next full pound.

Compare the package's Actual Weight to its Dimensional Weight. The greater of the two is the Billable Weight and should be used to calculate the rate. For multiple package shipments, total the Billable Weight of all packages in the shipment.

Shipment Pricing

Shipment Pricing applies when shipping multiple packages to one destination on the same day and the packages are listed on the same UPS Air Waybill or Shipping Label. The sum of the Billable Weight of all packages is considered as one shipment.

Shipment Pricing does not apply to UPS Express Envelopes, since these cannot be part of a multiple-package shipment. Shipment Pricing applies to all your exports and imports.

3. Determine the Zone

To determine the applicable zone for the country of destination of your exports for UPS Worldwide Express Plus®, UPS Worldwide Express® and UPS Worldwide Express Saver®, please refer to the Zone Chart on pages 5, 6 and 7.

To determine the applicable zone for the country of origin of your imports with consignee payment option for UPS Worldwide Express Saver, and UPS Worldwide Expedited® please refer to the Zone Chart on page 5, 6 and 7.

Note: If a zone number is not indicated in the corresponding column for the service you want to use, then UPS does not offer this service to that origin and/or destination country.

4. Determine the Rate

The rate is based on the service, the weight and zone.

5. Determine Additional Charges

To determine if your shipment will incur any additional charges based on UPS additional services, please refer to the Additional Charges section on pages 12 through 14 of this Rate and Service Guide.

Dimensional Weight =

$$\frac{L \times W \times H}{139}$$

- L = Length in inches
- W = Width in inches
- H = Height in inches

UPS will bill the result of this calculation or the Minimum Rate that is indicated, whichever is greater.
