Certification of Origin Form (CUSMA/USMCA/T-MEC) Continuation Sheet (Sections 7 & 8)

7. Description of Good(s) and HS Tariff Classification Number(s) (Cont'd)		8. Origin Criterion (Cont'd)	
Description	HS # (6-digit level)	Origin Criterion	Country of Origin

Certification of Origin Form (CUSMA/USMCA/T-MEC)

Instructions

A certification of origin that is the basis for a claim for preferential tariff treatment under the CUSMA shall include the below data elements in accordance with the below instructions. UPS provides customers with this information in an effort to help them better understand the CUSMA. This information, however, including this CUSMA certification of origin form and any other UPS-provided CUSMA information, is for informational purposes only. Neither the certification of origin form nor the CUSMA information constitutes legal advice. In addition, you, the customer (“you”), agree that it is your responsibility to confirm – and that you have confirmed – that any and all goods for which you claim CUSMA preferential treatment and/or that you identify on this CUSMA certification of origin form meet all of the applicable CUSMA rules of origin for those goods (e.g., tariff shift, regional value content, steel and aluminum content, labor value content, etc.) and any other applicable CUSMA requirement.

1. Importer, Exporter or Producer Certification of Origin

Indicate whether the certifier is the exporter, producer or importer.

2. Blanket Period

Include the period if the certification covers multiple shipments of identical goods for a specified period of up to 12 months.

3. Certifier

Provide the certifier's name, title, address (including country), telephone number, and email address.

4. Exporter

Provide the exporter's name, address (including country), e-mail address, and telephone number if different from the certifier. This information is not required if the producer is completing the certification of origin and does not know the identity of the exporter. The address of the exporter shall be the place of export of the good in a Party's territory.

5. Producer

Provide the producer's name, address (including country), e-mail address, and telephone number, if different from the certifier or exporter or, if there are multiple producers, state “Various” or provide a list of producers. A person that wishes for this information to remain confidential may state “Available upon request by the importing authorities”. The address of a producer shall be the place of production of the good in a Party's territory.

6. Importer

Provide, if known, the importer's name, address, e-mail address, and telephone number.

The address of the importer shall be in a Party's territory.

7. Description and HS Tariff Classification of the Good

Provide a description of the good and the HS tariff classification of the good to the 6-digit level (except, in the case that the relevant rule of origin for the good requires eight digits, identify to the 8-digit level using the HS tariff classification of the CUSMA Party into whose territory the good is imported). The description should be sufficient to relate it to the good covered by the certification; and

- (a) If the certification of origin covers a single shipment of a good, indicate, if known, the invoice number related to the exportation.

8. Origin

Origin Criterion

Specify the origin criteria under which the good qualifies, as set out in Article 4.2 (Originating Goods).

Article 4.2: Originating Goods

Except as otherwise provided in this Chapter, each Party shall provide that a good is originating if it is:

- (a) wholly obtained or produced entirely in the territory of one or more of the Parties, as defined in Article 4.3 (Wholly Obtained or Produced Goods);
- (b) produced entirely in the territory of one or more of the Parties using non-originating materials provided the good satisfies all applicable requirements of Annex 4-B (Product-Specific Rules of Origin);
- (c) produced entirely in the territory of one or more of the Parties exclusively from originating materials; or
- (d) except for a good provided for in Chapter 61 to 63 of the Harmonized System:
 - (i) produced entirely in the territory of one or more of the Parties;
 - (ii) one or more of the non-originating materials provided for as parts under the Harmonized System used in the production of the good cannot satisfy the requirements set out in Annex 4-B (Product-Specific Rules of Origin) because both the good and its materials are classified in the same subheading or same heading that is not further subdivided into subheadings or, the good was imported into the territory of a Party in an unassembled or a disassembled form but was classified as an assembled good pursuant to rule 2(a) of the General Rules of Interpretation of the Harmonized System; and
 - (iii) the regional value content of the good, determined in accordance with Article 4.5 (Regional Value Content), is not less than 60 percent if the transaction value method is used, or not less than 50 percent if the net cost method is used;

and the good satisfies all other applicable requirements of this Chapter.

Country of Origin

Provide the country of origin of the goods, i.e. United States, Mexico or Canada.

9. Certification, Authorized Signature and Date

The certification must be signed and dated by the certifier and accompanied by the following statement:

I certify that the goods described in this document qualify as originating and the information contained in this document is true and accurate.

I assume responsibility for proving such representations and agree to maintain and present upon request or to make available during a verification visit, documentation necessary to support this certification.
